

**INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, JULY 29, 2005 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 3**

CURRENT SITUATION:

Initial attack activity was light nationally with 196 fires reported. Six new large fires were reported, three in the Northwest Area, and one each in the Eastern Great Basin, Northern Rockies and Southern California Areas. Five large fires were contained, two in the Southwest and Rocky Mountain Areas and one in the Northern Rockies. Very high to extreme fire indices were reported in Alaska, Arizona, Colorado, Idaho, Montana, Nebraska, Nevada, New Mexico, Oregon, South Dakota, Texas, Utah and Washington.

NORTHWEST AREA INCIDENTS / LARGE FIRES:

BLOSSOM COMPLEX, Siskiyou National Forest. A Type 2 Incident Management Team (Paul) is assigned. This complex, comprised of the Huggins, Blossom and Solitude fires, is 25 miles northeast of Gold Beach, OR in timber. Structure protection for lodges along the Rogue River is in place. Fire continues to back downslope. Infrared flights are being conducted.

WASSON, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Walker) is assigned. This fire is 15 miles east of Eagle Point, OR in grass and timber. Residences, a tiger sanctuary, Northern Spotted Owl and Peregrine Falcon nesting sites are threatened. Running, torching and spotting were reported.

SIMPSON, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team has been ordered. This fire is six miles north of Klamath Falls, OR in grass, brush and timber. Upslope runs with plume dominated fire behavior were reported.

FAIRWELL BEND, Vale District, Bureau of Land Management. This fire is six miles west of Huntington, OR in brush. Steep terrain is hindering containment efforts. Shifting winds caused spotting and numerous heads on the fire. Extreme fire behavior was observed.

WALL LAKE, Washington State Fire Service. This fire started on private land 15 miles southwest of Davenport, WA in grass and brush. Agricultural land and structures are threatened. Running fire was reported.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

SNAKE ONE, Payette National Forest. This fire is 21 miles northwest of Weiser, ID in grass. Structure protection for Mountain Man Lodge is in place. Upslope runs and active backing fire were reported. Steep, rugged terrain is hindering containment efforts.

DAMMERON COMPLEX, Cedar City Field Office, Bureau of Land Management. A Type 1 Incident Management Team (Sexton) is assigned. This complex, comprised of the Dammeron, Mill Creek, Yant and Stahlie fires, is five miles north of St. George, UT in mixed conifer, pinyon, juniper and grass. The St. George municipal watershed and cultural sites remain threatened. Short runs and torching in unburned fingers and islands on the Dammeron fire were observed. Minimal activity on the Yant, Mill Creek and Stahlie fires were reported.

FALLS CREEK, Salmon-Challis National Forest. A Fire Use Management Team (Weldon) is assigned. This fire is being managed using a confine/contain strategy. The fire is 25 miles northeast of Challis, ID in timber and grass. Lower temperatures and higher relative humidity are moderating fire behavior.

SHEEP CREEK, Ashley National Forest. A Fire Use Management Team (Clark) has been ordered. This lightning-caused Wildland Fire Use (WFU) incident is 20 miles southwest of Manila, UT in timber litter and lodgepole pine. The fire is being managed to accomplish resource objectives. Occasional torching and moderate crown fire were reported.

NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

FROG POND, Beaverhead/Deerlodge National Forest. A Type 2 Incident Management Team (Larsen) has been ordered. This fire is 25 miles southwest of Phillipsburg, MT. No further information was received.

BAKER, Northwestern Land Office, Montana State. A Type 2 Incident Management Team (Cowin) is assigned. This fire is near the town of Plains, MT. Rocky terrain and heavy fuels are hampering containment efforts. Creeping ground fire with single tree torching was reported.

ROCKY MOUNTAIN AREA INCIDENTS / LARGE FIRES:

COMMISSARY, Grand Mesa/Uncompahgre/Gunnison National Forest. This fire is 22 miles west of Gunnison, CO in hardwood litter. A road and campground remain closed. The fire is being managed using a confine/contain strategy. Steep slopes with numerous snags are hindering containment efforts. Isolated torching and moderate rates of spread were reported.

PACK TRAIL COMPLEX, White River Field Office, Bureau of Land Management. A transfer of command from a Fire Use Management Team (Hahnenberg) back to the local unit will occur today. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Pack Trail, West Jordon and Smith Gulch fires, is being managed to accomplish resource objectives. This complex is 10 miles west of Meeker, CO in timber litter and brush. This will be the last report unless significant activity occurs.

SOUTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:

PINYON COMPLEX, Inyo National Forest. This complex, comprised of the Oak Creek, Pinyon and Hogback fires is six miles northwest of Independence, CA in timber and brush. North and south forks of Sawmill Creek are in monitor status due to safety concerns and difficult terrain. Active fire behavior with some torching was reported.

COMB, Sequoia & Kings Canyon National Park. A Fire Use Management Team (Hall) has been ordered. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is 18 miles northeast of Grand Grove, CA in hardwood litter, mixed conifer, and chaparral. Trail closures in the Lewis Creek area remain in effect. Spotting across Comb Creek was reported. Cloud cover diminished fire spread.

RED, Tulare Unit, California Department of Forestry and Fire Protection (CDF). This fire is nine miles east of Fountain Springs, CA in grass. Steep terrain and rattlesnakes are hindering containment efforts.

ALASKA AREA INCIDENTS / LARGE FIRES:

MISSION CREEK, Alaska Fire Service, Upper Yukon Zone. A Type 2 Incident Management Team (Chrisman) is assigned. This fire is being managed in conjunction with the Boundary Creek fire. This fire started on Alaska Native Claims Settlement Act land nine miles west of Eagle, AK in black spruce and tundra. Structures in and around Eagle remain threatened. Difficult terrain and lack of water sources continue to hinder control efforts. An extensive crown run, long range spotting and torching were reported.

BOUNDARY CREEK, Alaska Fire Service, Upper Yukon Zone. A Type 2 Incident Management Team (Chrisman) is assigned. This fire started on Alaska Native Claims Settlement Act land six miles southeast of Eagle, AK in black spruce and hardwood litter. A portion of the fire is in Canada. Structure protection for a residence along the Liberty fork of O'Brien Creek is in place. Liberty, Eagle, Eagle Village, structures and native allotments remain threatened. A five mile crown run along the Canada/US boarder with long range spotting was observed.

FOX CREEK, Kenai-Kodiak Area Forestry, Alaska Division of Forestry. This incident is being managed to accomplish resource objectives. This fire is 35 miles southeast of Soldotna, AK in beetle-killed spruce, hardwoods and timber litter. This fire is in monitor status. No new information was reported.

OUTLOOK:

Red Flag Warning: For Friday for south-central Montana for low humidity and isolated high based thunder and lightning.

For the northern Wyoming Big Horn Mountains for dry lightning.

Weather Discussion: Upper high centered over the Four Corners region will circulate moisture from the Southwest northward into much of the Intermountain West. A low pressure area will form over northwestern Canada and move westward over northern Alaska.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Southwest Partly cloudy. Isolated to scattered thunderstorms.	70 to 85 mountains. 85 to 105 lower elevations.	10 to 20% northeast Arizona and northern New Mexico. 20 to 35% elsewhere.	Variable 5 to 15 mph with gusts to 25 mph Arizona and western New Mexico. South to southeast 10 to 20 mph eastern New Mexico and west Texas.
Western Great Basin Partly cloudy with isolated to scattered showers and thunderstorms.	North valleys: 86 to 102. South valleys: 90 to 107. Mountains: 72 to 90.	North valleys: 9 to 19%. South valleys: 10 to 24%. Mountains: 13 to 34%.	Upslope in the morning becoming west or southwest at 5 to 15 mph late in the day.
Northern California Sunny to partly cloudy. Slight chance of afternoon and evening thunderstorms in the northern and eastern mountains.	90's to near 104 in warmest inland valleys.	10 to 22% in drier inland areas.	Variable under 12 mph, with p.m. gusts southwest to west/northwest 16 to 25 mph near the coast and Cascade/ Sierra Crest eastward.
Northern Rockies Upper level ridge over eastern Montana will bring warm and dry conditions and allow some subtropical moisture to flow from the southwest. Some isolated to scattered thunderstorms are possible mainly over southern Montana and central Idaho.	West of divide: 85 to 90. East of divide: 90 to 100. North Dakota : 80 to 90.	West of divide: 5 to 20%. East of divide: 15 to 25%. North Dakota: 30 to 40%.	West of divide: west 10 to 15 mph. East of divide: west 10 to 15 mph. North Dakota: south 5 to 10 mph.
Rocky mountain Mainly dry, except isolated dry thunderstorms.	Lower mid 90's (80's mountains).	8 to 20%.	West 8 to 20 mph Wyoming and Colorado, and south 15 to 25 mph across the eastern plains.
Eastern Great Basin Mostly sunny-partly cloudy regionwide. Warmer. Isolated afternoon thunderstorms, mainly over the mountains.	Idaho, Bridger-Teton: 73 to 87 mountains, 89 to 103 valleys. Northern Utah: 72 to 90 mountains, 89 to 103 valleys. Southern Utah, Arizona strip: 74 to 90 mountains, 90 to 108 valleys.	Idaho, Bridger-Teton: 13 to 21% mountains, 10% valleys Northern Utah: 19 to 25% mountains, 8 to 19% valleys. Southern Utah, Arizona strip: 20 to 30% mountains, 9 to 24% valleys.	Idaho, Bridger-Teton: South/southwest 8 to 10 mph. Northern Utah: Upslope/upvalley 5 to 10 mph. Southern Utah, AZ strip: Upslope/upvalley 5 to 10 mph.

<p>Southern California Areas of morning low clouds and fog in some coastal areas. Mostly sunny in the valleys. Partly cloudy to cloudy afternoons in the mountains and deserts with scattered thundershowers.</p>	<p>80 to 90 mountains. 90 to 100 valleys. 95 to 105 upper deserts. 105 to 110 lower deserts.</p>	<p>10 to 20% central California and 20 to 30% southern California.</p>	<p>Southeast to southwest 5 to 15 mph.</p>
<p>Alaska Mostly sunny in the morning becoming partly cloudy with isolated showers and thunderstorms in the afternoon.</p>	<p>70s to low 80s.</p>	<p>20 to 35%.</p>	<p>West to northwest 5 to 15 mph.</p>

REFUSING RISK (“TURNDOWN” PROTOCOL)

Every firefighter has the right and obligation to report safety problems and contribute ideas regarding their safety. Supervisors are expected to give these concerns and ideas serious consideration. When an individual feels an assignment is unsafe, they also have the obligation to identify, to the degree possible, safe alternatives for completing that assignment. Turning down an assignment is one possible outcome of managing risk.

- A “turndown” is a situation where an individual has determined an assignment cannot be undertaken as given, and they are unable to negotiate an alternative solution.
- A “turndown” must be based on an assessment of risks and the ability of an individual or organization to control those risks.
- A situation may be a candidate for a “turndown” if:
 - There is a violation of safe work practices.
 - Environmental conditions make the work unsafe.
 - The forces lack the necessary qualifications or experience.
 - Defective equipment is being used.
- The following steps will be used when turning down an assignment:
 - The individual will directly inform their supervisor that they are turning down the assignment as given. (Document using criteria outlined in the risk management process.)
 - Supervisor will notify the Safety Officer immediately upon being informed. In the absence of a Safety Officer, the appropriate Section Chief or Incident Commander will be notified. This step provides accountability for decisions and initiates communication of safety concerns.
 - If the supervisor requests another resource to perform the assignment, he/she is responsible for informing that resource that the assignment has previously been refused and the reason(s) why.
 - The safety hazard should be documented by the submission of a SAFENET or SAFECOM.
- These actions do not stop an operation from being carried out. This protocol is integral to the effective management of risk as it provides timely identification of hazards to the chain of command, raises risk awareness for both leaders and subordinates, and promotes accountability.
